

Aryan Omprakash Kaminwar

8446548140 | aryankaminwar@gmail.com | linkedin.com/in/aryan-omprakash-kaminwar | github.com/ARI-create193

EDUCATION

VIT University

B.Tech in Computer Science (CGPA: 8.21)

Aug 2023 – Present

TECHNICAL SKILLS

Programming Languages: Python

Cloud and Visualization: Power BI, Tableau, Snowflake

Libraries & Tools: NumPy, Pandas, Matplotlib, Plotly, Scikit-learn, Gradio

Databases: SQLite, MySQL

WORK EXPERIENCE / INTERNSHIPS

Data Analyst Intern

Owl AI (Overload Ware Labs AI)

Feb 2026

Remote

- Performed data cleaning, preprocessing, and exploratory data analysis using Python across **3 real-world datasets**
- Identified trends and patterns through EDA to support data-driven decision-making
- Generated and delivered analytical reports independently within assigned project deadlines

PROJECTS

Netflix Analytics Dashboard | github.com/ARI-create193/Netflix-Analytics-Power-BI

Business Intelligence Project

Power BI, DAX, Power Query

- Designed interactive Power BI dashboard analyzing **8,800+ titles** across **198 countries** and **515 genres**
- Cleaned **4,300+ missing values** across director, cast, and country fields using Power Query
- Engineered **5 DAX measures** and **3 dynamic slicers**, surfacing insights like U.S. leading with **3,210 titles**

Supermart Grocery Sales Analytics | <https://surl.li/vihcat>

Data Science Project

Python, Gradio, ML

- Built Gradio app forecasting sales on **9,994 records** across **7 categories** and **24 cities** using Random Forest
- Engineered **4 features** from category, region, discount, and order-date fields to drive prediction accuracy
- Deployed real-time Gradio interface for instant sales predictions and profit/discount analytics

Customer Churn Analysis Generic | <https://github.com/ARI-create193/Churn-analysis-generic>

Data Analysis Project

Python, Pandas, NumPy, Plotly

- Developed an end-to-end automated churn pipeline processing **7,032+ customer records** across **33 feature attributes**
- Engineered dynamic modules for schema detection, automated target normalization (0/1), type coercion, and tenure bucketing
- Constructed interactive visualizations using Plotly, including correlation heatmaps, categorical churn rates, and **3D feature distribution plots**

CERTIFICATIONS & ACHIEVEMENTS

IBM - Databases and SQL for Data Science (Coursera) | **Verify**

IBM - Machine Learning with Python (V2) (Coursera) | **Verify**

EXTRACURRICULAR ACTIVITIES

PR and Outreach Lead

Electric Vehicle Club

Oct 2024 – Apr 2025

- Led social media campaigns increasing club engagement by **40%**
- Established industry partnerships and coordinated promotional activities for EV awareness events
